

Living in Sioux Falls, S.D. there is only one other provider for christian music. They provide excellent christian music for my family to listen too. If another provider were to replace them that doesn't hold the values that K-love does, than my family would not receive the quality ministry they get from this radio station. I know that there are a lot of christian families with children who enjoy listening to K-love on a regular basis in our region. Please do not allow this to happen to a wonderful station that gives families a clean alternative to listen too. Thank you.
